SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this

collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Abstract: According to Part B section 5201 of the Elementary and Secondary Education Act, one of the established purposes of the Charter Schools Program at the US Department of Education (ED) is to encourage "States to provide support to charter schools for facilities financing in an amount more nearly commensurate to the amount the States have typically provided for traditional public schools". To help achieve this purpose, the Charter School Program needs reliable data to understand the current facilities landscape for charter schools. There have been discussions on the struggles of charter schools for equitable and adequate access to facilities and facilities financing, yet there were no official studies, reports, or analyses explicitly discussing the facility landscape of charter schools and the similarities and differences between charter school and traditional public school facilities. The Charter Schools Program, through the National Charter School Resource Center, administers a questionnaire conducted by the Colorado League of Charter Schools to gather data on charter schools facilities. This data helps to assess the true facilities challenges of the charter schools and what actions ED and the SEAs must take to better financially support the facilities needs of quality charter schools. ED would like to continue to use and administer this questionnaire in additional states and compile the data from all states into a facilities database. ED plans to conduct this survey in approximately three to four states per year, depending on the size of the state and local resources of the CSO to support the survey. This database will provide comprehensive information about the facilities for charter schools and the issues that charter school face in trying to obtain adequate facilities. The League will produce a report and an analysis summarizing the findings per state.
